

Lewis Torrington

Helsinki, Finland

Profile

I am a data-focused software engineer from Australia, now living in Finland. I work well in a team, am adaptable to most environments, and I learn quickly.

Experience

FULL-STACK DATA ENGINEER, UP-CLOUD – 2022-PRESENT

Responsible for all data-related projects and pipelines for the company - using cloud-native approaches to our solutions wherever possible to dogfood for other teams.

FULL STACK ENGINEER, BLOK OY – 2021-2022

Working on the Buyer Service in an app-based Real Estate Startup. Mainly Python incl. PyTorch, GCP: AutoML, Cloud Run.

FULL STACK ENGINEER, HYPERIN OY – 2019-2021

Improving the control panel for an ERP for European shopping centres.

Skills

Selected hard skills and experience:

- Languages: Python, Go, modern JS frameworks. Whatever gets the job done.
- Architectures: Kubernetes, Docker, messaging (Kafka, Pulsar, GCP Pub/Sub), horizontal & columnar databases (BigQuery, Cassandra, also Postgres with TimeScale though that's neither horizontal or columnar 😊).
- DS Tools: Apache Spark, Jupyter.

Selected soft skills: team-mindset, curiosity, work ethic.

Education

University of Wollongong, Australia – Bachelor of Computer Science, 2016-2018
